

Alessandro Diana studied medicine at the University of Geneva, Switzerland, where he obtained his medical degree in 1996.

He continued his medical training at the University of Geneva, becoming an FMH specialist in paediatrics in 2000 and an FMH specialist in infectious diseases in 2010.

He obtained his doctorate in medicine in 2004 for a thesis entitled "Étude de l'immunité vaccinale chez les enfants après transplantation hépatique à Genève entre 1990 et 2002".

He is currently the doctor in charge of the Paediatric Centre at the Clinique des Grangettes Hirslan in Geneva. Since 2018, he has also been a lecturer at the Faculty of Medicine of the University of Geneva. His scientific interests include vaccinology, vaccine hesitancy and medical education. Since 2005, he has been one of 9 Swiss experts on the Infovac platform, a Swiss website on vaccines and vaccinations for the general public and healthcare professionals ([www.infovac.ch](http://www.infovac.ch)).
