

Pierre-Alex Crisinel studied medicine at the University of Lausanne in Switzerland. He obtained his medical degree in 2000. He then did his training in Pediatrics, at the Lausanne University Hospital (CHUV) and obtained his diploma in 2006. He then went to Ste-Justine Hospital, in Montreal, Canada to pursue an additional training for 2 years in pediatric infectious diseases. On his return to Switzerland, he completed his training in Paediatric Infectious Diseases at the Geneva University Hospital (HUG), where he also completed a training in vaccinology with Prof. Claire-Anne Siegrist. He obtained his specialist diploma in Infectious Diseases in 2012 and integrates the swiss vaccines experts team (INFOVAC) in 2013. He currently works as an attending physician in the Unit of Pediatric Infectious Diseases and Vaccinology at the Lausanne University Hospital (CHUV). His clinical research activity deals with community-acquired infections and vaccines in migrant populations
